Comparative Behavior of Nursing Leaders & Business Leaders

Afeefah Awaid Aldhafeeri

RN , BSN , MSN , Nursing Supervisor , North Area Armed Force Hospital , KSA

Abstract

Background: It goes without saying that leadership is one of the important skills required across the Nursing profession today. Our world is changing, we live in an age career that is moving toward the new Pandemic effects knowledge and new health trend, nursing leadership has to update their skills to deal with all levels of people, organizations and Nations. Nurses naturally are a profession that seek for Quality Health care delivery. Nurse leadership is a journey that grows with knowledge, experiences, exposure and taking the risk. Next upcoming Nurses leadership generation has to be crafting for innovation and future sustainability in Health Section.

Objective: leadership in future nurse leaders has to be aligned with skills from the perspective of Business leadership

Method: In terms of being an excellent Nurse leader you have to think like a business manager, in this presentation I will speak about the three points in Business leadership and compare it with what we as nurses are used to and still doing.

- Intelligence Quotient (IQ) Build yourself by knowledge
- Emotional Intelligence (EQ) Build your team
- Political Intelligence (PQ) Build your Echo system

Discussion (Results): According to Business expert, to grow as leader you have to have knowledge to act as confident and you must to take the risk by having the grit. Nursing is committed to improve the quality care of our patients, their family members, and the community through excellence in leadership, practice, innovation, and education.

Conclusion: Nursing profession is always taking everything into consideration, leadership today has to viewed from a holistic realistic approach.

Keywords: Nursing, leadership, skills, business, Emotional Intelligence, Political Intelligence, Intelligence Quotient.

Biography

My Name is Afeefah Aldhafeeri a Saudi Nurse whom started nursing profession in 2008 as diploma work in Hemodialysis until finished my BSN in 2013. I started the journey of Nursing knowledge in Management and leadership experiences in Out Patient Department then moved to be a Nursing Supervisor. Now I have a Master Degree in Advanced Nurse Practitioner. Currently I am working in North Area Armed Forces Hospital as nursing Supervisor and still seek learning to use the innovator in creating positive work environments that foster and support Nursing professional growth and development. For me Nursing profession is all about continuous knowledge and to understand nurses better be able to make a difference.
