

International E-Conference on

# NURSING AND HEALTH CARE

November 18-20, 2020 | Virtual Webinar

**Dr Prof Ashank Mishra**

Head of Research Department and Faculty in Periodontology, EIMS, Malta

## Current Trends in Dentistry

The important goal in dentistry is to provide best dental care to the patients. Day by day, science is undergoing great revolutions that are leading the humanity towards a new era of dentistry. Dentistry is an ever-evolving industry. As we move into the new decade, more patients will have more choices of what they want from their dentist. As a dental care professional, and potentially an owner of a dental practice, it is important to stay ahead of the curve when it comes to the latest technologies and services in dental innovation. The presentation will provide a one-stop-shop to usher a practice into the new decade to rise above the noise.

From laser dentistry to digital impressions, technological advancements have made your smile brighter and is expected to shine in 2020. It is expected that next year dental care will have a massive growth in its treatment and medication therapies with advanced science and technology. Currently oral health is becoming a bigger priority of life and is expected that the coming years will feature several exciting dental technologies.
